

I am writing to try to ensure that K-LOVE stay on the FM waves. In my community, I listen to FM 94.3, K-LOVE. This is the best Christian radio out there. Other stations don't play current styles of music. As another Christian radio station is going off the air on October 30, K-LOVE will be the only Christian radio in my area. I've been able to witness to others through K-LOVE's music. John and Sherry Rivers begin my day every morning on the way to work. They make me laugh and give a boost to my mood before I go into a hard day at work. One of my co-workers actually turned to a Christian radio station for me and K-LOVE doesn't come in in Oak Park, IL. That made me sad because this co-worker is a seeker. So, instead of taking K-LOVE off FM, it needs to be available in MORE cities.

There have been many, many cases of people "stumbling across" K-LOVE at just the right moment and it has changed their lives. I know when I'm going through a particularly hard time, a song will come on K-LOVE and it will change my entire outlook. My point: KEEP K-LOVE on regular FM translators so everyone can find it!
